

About the book

This book could be helpful and attractive to everyone who is interested in the events in Kosovo and on the Balkans.

And to everyone who wants to expand and complete their knowledge about what really happened at the catastrophic crossroads of the centuries and along the bloody transition paths in the region that was once known as Tito's great Yugoslavia.

This book is for readers who are open towards facts and the majority of readers regardless of their ethnic origins, be they Serbian or Albanian.

About the author

Xavier Raufer is a Study Doctor at the University Center of Contemporary Research of Criminal Threats (Centre MCC, University Pantheon – Assas, Paris II), Assistant Professor at the Criminology Institute in Paris and the Director of the "International Criminal, Defense and New Challenges" Collection published by the French University Press.
